INNOVATION, PRECISION AND PERFORMANCE

GAMO® 
Precision Airguns

A LEGACY OF INNOVATION.

For more than 60 years, Gamo has been designing and manufacturing world-class air rifles, air pistols and air gun ammunition for small game hunting, competition, recreation and pest control. Today, Gamo rifles are sold in more than 90 countries with offices in the USA, UK, Spain and Mexico. A truly iconic brand, Gamo delivers the finest products and the latest technology supported by unparalleled customer support and interaction.

THE DIFFERENCE IS IN OUR DNA.

- Fully integrated manufacturing
- Repeated test firing
- Exhaustive quality control procedures
- Automotive-grade robotic technology
- Patented polymer-jacketed barrel
- Patented Whisper sound-dampening technology
- Green manufacturing facility

Own the air with Gamo today.
The most progressive and innovative air rifle manufacturer in the world.

GAMO PROSHOT ID SYSTEM

THE RIGHT AIR GUN > THE RIGHT AMMO > THE PERFECT COMBINATION
At Gamo, we manufacture many different air guns to fit the needs of versatile shooters everywhere. With such a variety of choices, we've created the GAMO PROSHOT ID SYSTEM to help you better align your shooting needs with the performance attributes of each model. From Hunting to Pest Control & Recreation to Target & Competition, all Gamo air gun and ammunition packages are clearly labeled and color coordinated to designate their recommended primary usage—so you can easily pair the right ammo with the right air gun. Every time.

GAMO PRODUCT RECOMMENDED USAGE

GAMO AIR RIFLE RECOMMENDED USAGE

PLINKING & PEST CONTROL

Provides accuracy and high velocity – ideal for recreational purposes and other everyday uses like target shooting. Also perfect for nuisance animals such as mice, rats, birds and snakes.

HUNTING

Delivers accuracy with higher energy downrange for ultimate impact and penetration – ideal for small game such as rabbits, squirrels, raccoons, and crows.

TARGET & COMPETITION

Offers the ultimate in accuracy and consistent performance – ideal for both training and competitive shooting.

10X QUICK-SHOT RAPID RELOAD TECHNOLOGY

MULTISHOT® GEN2 INERTIAL
10X Quick-Shot GEN2 rapid reload technology

Gamo's New 10x GEN2 Inertial Magazine has been designed to offer an improved reloading experience. The redesign of its internal mechanism allows easier pellet indexing, minimizing inner frictions and providing an extremely smooth operation, increasing the lifespan of the rifle and guaranteeing an optimal shooting experience. Gamo's 10X GEN2 Multishot system is lighter, a 25% more compact and presenting a low profile design, with the inclusion of open sights, that will let you use this airgun without a scope.

AIRGUN TECHNOLOGIES

Based off the groundbreaking IGT platform, the IGT MACH 1™ replaces the standard spring powerplant with an Inert Gas Cylinder, but the IGT MACH 1's monster 33 millimeter cylinder delivers more velocity and terminal penetration. The pneumatic cylinder rockets pellets up to 1420 Feet Per Second (fps) in .177 caliber (with PBA Platinum Ammo), and promotes smooth and consistent cocking efforts with constant power delivered to any pellet you shoot. If you want: More Precision, Less Vibration and True Knock Down Power. Make sure your next Gamo has the IGT MACH 1 inside.

Improve your knockdown power and accuracy! Enhance your hunting experience! The IGT™ (Inert Gas Technology™) from Gamo® enhances your hunting or target shooting experience. This technology consists of a pneumatic cylinder that replaces the spring, enabling the shooter to get more terminal velocity (up to 1,300 fps with PBA® Platinum .177 Cal. and up to 975 fps with PBA® Platinum .22 Cal.), less vibration, more consistent power, and a constant and smooth cocking effort.

The revolutionary C.A.T. (Custom Action Trigger) enables Gamo air rifle owners to independently adjust the 1st and 2nd stages of their trigger to tailor the trigger pull and crispness to their personal preference. Simply loosen the 1st stage adjustment screw and the trigger travel increases. If a shorter travel length is desired just tighten the same screw to decrease the 1st Stage travel length. The 2nd Stage Adjustment is made just as easily—unscrew the adjustment setting to increase the 2nd Stage travel length or decrease it by screwing in the same adjustment point.

The SAT is a patent-pending trigger developed by Gamo and incorporated into several Gamo airguns. This trigger helps the shooter acquire a more precise shot. It is a custom trigger designed for hunting and target shooting that will make you shoot like a pro! It features a smooth action pull, maximizes pinpoint accuracy and feels crisp and clean.

Gamo, pioneering the latest air gun technology, delivers the groundbreaking Triple R (Recoil Reducing Rail). The RRR was developed to subdue the taxing stresses placed on your scope from the intense recoil of air guns and high-powered rifles. The Recoil Reducing Rail uses patent pending two-piece aluminum construction separated by dual polymer struts to absorb the shockwaves generated by the recoil. Once the scope is mounted to the Recoil Reducing Rail, the recoil stresses to its internal components are reduced by almost 100%.

GAMO SOUND SUPPRESSION TECHNOLOGY AND SOUND LEVELS

Gamo's patented Whisper technology leads the air rifle industry in sound suppression. This technology is categorized into three tiers—Whisper, Whisper Maxxim and Whisper Fusion—for quiet, quieter, and quietest performance. However, “noise reduction” does not mean “silence,” as sound levels will vary depending upon pellet choice. A lighter, faster and smaller caliber pellet, for instance, will produce a louder sound than a heavier, slower and higher caliber pellet. To further assist with your purchasing decision, please refer to the chart above.

The Whisper is the noise-suppressing technology already known and trusted by thousands of shooters around the world. It is one of the first noise-dampening technologies created in the air-gun industry. The Whisper is an integrated noise and muzzle blast reducer molded onto the barrel, forming a single part.

The Whisper Maxxim features two noise dampening chambers, offering a quieter performance as well as an improved muzzle break design. The new muzzle break helps reduce the recoil and is also integrated with the bull barrel. This new technology results in a lightweight, fluted, polymer/steel rifled barrel, integrating one of the latest sound-suppression technologies from Gamo. The Whisper Maxxim takes less space than the Whisper, keeping a better weight balance while making the air rifle quieter.

The Whisper® Fusion® technology incorporates a double integrated sound moderator making it the quietest Gamo air rifle. The pellet travels through two different chambers, compressing and preventing the noise expansion.

HUNTER 1250 GRIZZLY PRO

COMBINING A BEAR’S NATURAL ELEGANCE AND FIERCE AGRESSION.

Gamo’s Hunter 1250 Grizzly Pro combines a bear’s natural elegance and fierce aggression. Designed on a wooden stock, this airgun stands out for its sublime details: metallic barrel block, 33mm Oversized Gamo cylinder, which provides a supernatural power from its IGT system, and Whisper silencing technology which calms down the beast and makes it more precise and controllable.

PCP RIFLES

ULTRA VERSATILE. ULTRA FUN.

Gamo PCP rifles are exceptionally reliable and unquestionably comfortable to shoot—delivering unsurpassed accuracy whether you're plinking, at the range or in the field.

FURIA

DESIGNED TO PROVIDE A PERFECT HANDLING BALANCE.

The new Gamo Furia has been designed to provide both a perfect handling balance and an extremely quiet shooting. This outstanding bullpup multishot air rifle, which includes a brand new bolt action system will call your attention due to its stylized wooden stock, which makes its design way more compact, balanced and agile. The Furia has been engineered bearing maneuverability and precision in mind, so it features a cold hammer forged barrel, including the new Whisper Shroud noise reduction system which provides improved performance in narrow spaces and a notorious weigh reduction.

HPA TACTICAL

THE FIRST TACTIC PCP AIR RIFLE.

Gamo's HPA Tactical is a tactic-looking air rifle which features the brand's precharged pneumatic air technology. Gamo's last generation PCP provides a smooth, powerful and accurate shooting due to its sophisticated compression system, which supplies a constant air feed that efficiently boosts pellets of all calibers. Gamo's HPA Tactical airgun is composed of a precise and reliable cold hammer forged barrel and a brand new adjustable and ergonomic polymer stock, which guarantees a perfect sight to target alignment.

AIR PISTOLS

SPEED, POWER AND ACCURACY

Crafted to the same meticulous standards as our industry leading air rifles, Gamo air pistols are second to none in speed, power and accuracy. That's the Gamo difference—and it's in our DNA.

P-430

NEW

CO2 air pistol

The P-430 CO2 powered air pistol shoots both caliber 4,5 pellets and BBs at 150m/s. This pistol comes with a pellet clip that holds 16 rounds (each end of the magazine features a rotary clip holding eight pellets each).
